Introduction

All Saints Academy, Plymouth recognises that *all* members of the Academy have the right to feel safe and secure. The Academy aims to prevent, reduce and effectively manage incidents of bullying. Everyone in the Academy has the right to feel free from any threat of bullying or harassment. Students should feel safe when reporting incidents, without fear of reprisals. The Anti-Bullying policy will be applied proactively, fairly and consistently to all. The aim is to effectively deal with incidents of bullying, to promote relationships of respect in order to prevent bullying and to generate a climate of trust in a caring and safe learning environment.

Purpose

Definitions of Bullying

 include comments about size, appearance [including hair colour, odour, clothing,
 academic or other abilities, home life, social/financial circumstances], spreading rumours
 or other comments designed to be hurtful

 calls, text messages, social networking sites and may include camera and video images
- Physical assault; including pushing, tripping, slapping, kicking, hair pulling, spitting, unacceptable touching including that of a sexual nature, blocking of doorways and corridors, pinching, stabbing or burning or any other physical activity that is used in a way to make another person feel threatened or intimidated
- Interference theft, extortion, vandalism, hiding or defacing property, blackmail or any other activity designed to intimidate or hurt another person
- Intentional psychological pressure social exclusion, looks and glares, lying, slander, starting or spreading rumours, name calling, reorganising or pressurising friendship groups or any other activity designed to intimidate or hurt another person or incitement of others to become involved in bullying

Procedure

The responsibility for dealing with bullying is shared by everyone at All Saints Academy, Plymouth.

Those who do not bully [the bystander] need to help, encourage and support those involved and must report any incidents.

Those who are bullied [the target] must be brave enough to report it.

Those who do bully need to understand the effect their actions have on others and be helped to modify them accordingly.

Adults Dealing with Bullying

Any staff observing or informed of incidents of bullying will deal with the immediate problem and pass a Student Information slip to the form tutors of all involved, outlining what has happened and what action they have taken.

The form tutors will look at the information passed on and follow the system for identified patterns or serious incidents [see Bullying Incident Report Form].

For patterns or serious incidents the form tutors should be the first contact if immediately available. If Senior Leadership Team, Learning Family Leader and Child and Family Support Managers have to be the first contact they will initiate the system and hand over the procedure to the relevant form tutors. After the initial report form tutors involved will negotiate between themselves the further operation of the system.

For all patterns or serious incidents of bullying the form tutor will ensure that the following system will apply:

- 1. statements will be collected from all parties CFSM
- 2. a copy of the Bullying Incident Report will be placed by the CFSM in the file of those involved [bullies and victims] and one copy filed centrally for monitoring purposes
- 3. parents/carers of both victims and bullies will be informed if not already involved. A copy of the letter or a note recording the telephone conversation will be placed with the incident notes on the student's file
- 4. share with the bully the victim's feelings \bigcirc if appropriate, and
- 5. share with the victim the bully's feelings only with victim's consent
- 4. discuss responsibilities with both
- 5. discuss ideas for solutions with both
- 6. all work on the solutions agreed
- 7. meet again [maximum 1 week] to discuss progress
- 8. keep monitoring

Incidents of severe physical assault need to be dealt with in a very different manner, but investigation into the reasons for the assault can follow this same pathway.
