

Supplementary Information Form - Exceptional Social or Medical Need 2022-23

To be completed only where a parent is seeking admissions priority on the grounds of exceptional need.

Parents who wish to have an Exceptional Social or Medical Need considered with their application (criterion 2) must submit independent professional evidence which explains clearly why it is essential to attend the school and no other school.

For a normal round entry into Year 7 in September 2022, the evidence should be submitted by the closing date for applications of 31 October 2021.

Evidence submitted after the closing date may mean the application is considered as late.

Parents must also complete a Local Authority Common Application Form

For an In-Year admission into any Year Group, the evidence should be submitted with the application.

PART A – to be completed by the parent	
Full name of child	
Date of Birth	
School you are applying for	All Saints Church of England Academy
Does this school give priority for exceptional social or medical need?	Yes
Please tick the box below if you believe there is an exceptional social or medical need for your child to attend this school.	
<input type="checkbox"/> Criterion 2	Priority will next be given to children based on their exceptional medical or social needs or those of their parents.

Extract from the school's admissions arrangements:

Exceptional social or medical need:

We give higher priority for children where there is an exceptional need to attend this school and not another school. The need must be specific to this school: a child may have very challenging circumstances that require additional support but if that support could also be provided at another school, there would be no exceptional need to attend this school.

In order to seek priority on this basis, parents must complete the Supplementary Information Form for Exceptional Need.

The exceptional need could be due to the parent's circumstances. Exceptional need could include:

- A serious medical condition, which can be supported by medical evidence;
- Significant caring responsibilities, which can be supported by a social worker;
- Where one or both parents or the child has a disability that may make travel to another school more difficult, which can be supported by medical evidence.

These examples aren't meant to be exhaustive or exclusive. Neither should it be assumed that similar circumstances would impact on different children and families in the same way.

- if there are medical reasons that make it essential for a child to attend this school, the parent must provide supporting information from a doctor, together with any other relevant information. This must make a compelling case as to why the child's needs or the parent's can only be met here; having a medical condition will not automatically result in a place here. It isn't essential for the doctor to name our school and we wouldn't expect a doctor to have enough, specific knowledge of the school but the evidence should explain exactly what the child's needs are and what specialist support and facilities are required.
- for social reasons, parents must provide independent evidence from a relevant professional supporting the family. The supporting evidence must set out the reasons why this school is the most suitable and the difficulties that would be caused if the child had to attend another school. It isn't essential for the professional supporting the family to have in-depth knowledge of our school but the evidence must explain exactly what the needs are and what specialist support and facilities are required.

Exceptional need for admission here will not be accepted on the grounds that:

- a child may be separated from a friendship group;
- parents wish to avoid a child from the current or previous setting;
- child-care arrangements before or after school would have to be changed;
- transport arrangements would have to be changed;
- there is a medical condition such as asthma that doesn't require specialised treatment;
- the child has an interest or ability in a subject or activity.

Evidence from a relevant professional, independent of the family will be required in every case and should be made available in time for us to rank the application using the school's oversubscription criteria. This should provide a reasoned and unequivocal opinion establishing why the child would suffer a significant detriment by not being admitted to this school. Evidence should be from a GP, consultant or other health care worker or social care officer working with the child. Without satisfactory supporting evidence, we will not prioritise an application as demonstrating exceptional need. We may seek our own advice to establish whether this is the only school that could meet a child's needs.

Parents can indicate on a common application form that they believe there is an exceptional need for admission here. It isn't expected that a parent will seek this priority at a school that was not named as the first preference. The onus is on parents to submit their supporting evidence and to provide further evidence if requested to do so. Parents who apply using a common application form from another LA without a tick box for exceptional need should put a note in

the reasons for their preference that they are requesting exceptional need priority and provide the required supporting evidence.

If we accept that exceptional need has been demonstrated, the application will be prioritised. This does not guarantee that a place will be available. Where we don't agree that the need is exceptional, the application will be prioritised according to other oversubscription criteria.

Nature of the supporting evidence you are submitting, provided by a relevant professional
